Your Doctor - The Sorcerer's Apprentice

Big Pharma = Bad Medicine

"...for thy merchants were the great men of the earth; for by thy sorceries were all nations deceived." -- Revelation 18:23

Well... to all my "**religious**" brethren and sistren, you may want to tune into the current episode of **Free Your Mind Online**. I lead off with the aforementioned scripture for a reason. And no, I'm not here to engage in end of the world stories, but this particular scripture is very powerful. Now, I think we all know at this point that the original texts (stories) in the Bible were not written in English. They were obviously translated that way. So sometimes it can be very educational to go back and see what some of the original (or previous) words were, and what their definition was.

The above scripture clearly implies that in the latter days, the masses of people will or are being deceived by sorcerers. Now... a religious preacher may read this scripture in order to keep you from watching **Harry Potter**, or **Lord of the Rings**, but I'm going to go into a different direction.

You see, most people think of sorcery as evil spooky witchcraft. You can right now see a **Green** lady with **Black** fingernails (green and black colors commonly being associated with nature) making potions and casting evil spells. So ask yourself this question, are the **MASS**ES of people into this, or even anything like this? If you walk up and down the street and ask people are they into or do they support **sorcery** or **witchcraft**, the majority of people would say NO! So, I think it is safe to say that ALL

nations are not being deceived by this. So then what could this scripture be referring to then?

Well... if you do some research, you will find that in this instance, the word sorcery comes from the Greek word **Pharmakeia**. Now, why is that important? Because the word pharmakeia is where you get the word PHARMACEUTICAL from!! Now, what exactly does pharmakeia mean? Well according to the [Biblical Greek Lexicon](#), Pharmakeia means

1. the use or the administering of drugs;
2. **poisoning**
3. sorcery, magical arts, often found in connection with idolatry and fostered by it.
4. metaph. the deceptions and seductions of idolatry.

The Pharmaceutical Industry - Modern Day Sorcerers

Yep, you see today's modern day "evil sorcerers", are those people sitting around in a lab making "potions" that:

- #1. Get rid of the symptoms of the disease you have while
- #2. Giving you 15 other diseases.

That's why they have these minute long commercials, where half of it is advertising there drug (and by the way, how can you advertise a drug - if you are sick, shouldn't THE DOCTOR decide what you have and what you should take?), and the other half is telling you all of the side effects, like suicide, death, and increase risk of stroke, heart attack and

cancer.

That's what happens when you take poison!

This is why doctors (aka the sorcerers' apprentices) [kill more people than the diseases they are treating](#). This is why you had the [swine flu gimmick](#). Yes, the merchants (pimps) are truly deceiving the masses.

You see, allopathic medicine is based on the **Paracelsus** (the reported father of **toxicology**) philosophy, which is, "[the dose makes the poison](#)." You see, based on this philosophy, EVERYTHING is a poison. If you drink too much water, it can kill you. If you get too much oxygen it will kill you. And of course, too much Arsenic can kill you. It's just that arsenic can kill you at a lower dosage. So since everything can kill you if you overdose on it, then technically nothing is poisonous or non poisonous. It is the dose that makes the poison.

This is why fluoride (aka [Pimp Juice](#)), which is actually [RAT POISON](#) is being dumped in the water under the pretext that it is good for your teeth. The Government knows that it's poison, but at "low doses" it won't kill you... but it will stop those cavities... LOL! This is the reason why [Mustard Gas](#) which was used in World War I to kill people is [given to cancer patients](#). The medical establishment knows that chemotherapy is poison, but the theory is that at "low levels" of this poison, it will kill the cancer in your body, BEFORE IT KILLS YOU! That's why you feel terrible and your hair falls out. **BECAUSE THE CHEMOTHERAPY IS KILLING YOU!** Everything is poisonous... right?

Yes... the Pharmakeia has lost control!

And since the Government (and religions for that matter) are in bed with the Pharmakeia (which is why people are now trying to break into peoples homes and [try to kidnap their children](#)), people who use natural remedies (natural includes mental, physical and spiritual tools) to cure people are called Witch Doctors! And that is why religious extremist (mostly Christians) went on so called "**witch hunts**" to kill all of the natural healers, and allow for the Pharmakeia to establish themselves. Even to this day, natural healing is often looked at as witchcraft!

This is phenomenon is explained in the following article.
[Witchcraft - Natural Healing or The Flu Shot?](#)

But But But... But I'm sick!! What am I supposed to do?

Well... what do scriptures say you should do?

"God causes the **herbs** to grow for the service of man" (**Psalm 104:14**)

"The **leaf** (of the tree) shall be for **medicine**" (**Ezekiel 47:12**)

"The **leaf** shall be for the healing of the nations" (**Revelations 22:2**)

But now, I don't want to discriminate, so if you don't believe in the Bible, you can always just use common sense. Drugs kill thousands of people per year (even using the prescribed dosage). Where are all the people dying from herbs?

Allopathic medicines only treat (never cure) disease. They only mask (or distract you away from) the symptom, while poisoning you and giving you more diseases (that they will have to prescribe more drugs for). And since your disease never gets cured, you will have to be hooked on that drug for life. **This keeps the pharmaceutical industry paid!!** Great residual income. And if these drug dealers REALLY want to get paid, they can always [make up new diseases](#). So... if you are depressed, that is a disease that you need a pharmaceutical for. And sooner or later, if you have a temper, you will need a drug for that. If you are rebellious, you will need a drug for that. If you are shy, you need a drug for that. If you are a child, and you can't sit still because the DUMBED DOWN school curriculum is boring, you need a drug for that. And if you don't want it, we will force it on you!

And ladies and Gentleman, this is why they are marketing madness and drugging our children.

The Drugging of Our Children - Full Documentary

"...for thy merchants were the great men of the earth; for by **their pharmaceuticals**, were all nations deceived." -- Revelation 18:23 - Free Your Mind Online Standard Edition.

But don't take my word for any of this. Just listen to the next drug commercial and they will tell you. "If you have thoughts of suicide, call a doctor..." **So He or She Can KILL you!**

Until next time. Free Your Mind... Online.
